SUSTAINABILITY

SUSTAINABLE TRAVEL IN SOUTH BANK - SURVEY

South Bank BID has partnered with the [Cross River Partnership](#), a non-profit organisation who have been delivering positive change around London through social and environmental initiatives for 25 years, to create a **Clean Air Village** in South Bank.

As part of this project, we are working to create a **dedicated sustainable transport programme** across the area. A key element of designing and implementing the programme is understanding what the preferences are of our business community, and in which areas we can create the most benefit for organisations across South Bank.

To that end, we have created a **survey** to understand what the current transport patterns and preferences are for employees travelling into the area, and what the best possible opportunities are to create more sustainable travel.

The survey takes **5 minutes** to answer and contains **21 questions**; it covers topics such as current modes of transport, commuting times, and what employees would ideally like to see coming out of an active sustainable travel scheme in South Bank.

We're very grateful for your time and your feedback on this matter; we know providing employees with safe and sustainable ways to travel into the area is a high priority currently for many of our businesses. We feel having this information will help ensure a programme that businesses throughout South Bank can benefit from, and also act as a crucial step to tackling air quality.

Support Bernie Spain Gardens

Now more than ever, access to green space is vital. **Bernie Spain Gardens** here in South Bank, which is run by **Coin Street**, is looking for support to help transform the northern garden into an even more sustainable space.

Their new "**Pollinator Garden**" designs will focus on biodiversity, sustainability and community. Coin Street are seeking funding to cover the cost of transforming and extending Bernie Spain Gardens. Signing your name in support will make it possible to get that funding.

How to support the Gardens

- Sign your name in support below
- Ask colleagues and friends to sign too
- Share with your social networks

Available Cycle Parking in South Bank

As more people are looking to commute via bicycle to the office, **Stolen Ride** have created a handy map featuring all available cycle parking across Central London. The map also includes additional data on the storage capacity, and a photo of the parking storage where available.

Through our work in the **South Bank and Waterloo Management Group**, the BID is currently looking to find solutions to making additional bicycle storage available in the area.
